Introducing the Desktop 2000i Series II now available with Blu-ray Disc™ recorders

The updated Desktop 2000i Series II disc publishing system is an affordable front-office solution that now comes equipped with Rimage Software Suite - Network. It also features USB 3 connectivity, optional DiscFlow Software for Mac and optional BD recorders to make it the most fully-featured desktop disc publisher on the market. Open the box, plug in the cables, turn on the power and you are ready to publish professional-looking discs with the Rimage Desktop 2000i Series II system. No components to assemble, no printer to mount or alignments to make, just professional results each and every time.

Benefits

Powerful printing
The integrated HP printer's unsurpassed ink control and superb color management create photo-realistic images, vivid color output and extremely sharp text for quality printing—directly to your disc.

Low cost of operation
Speed, reliability and a large disc input bin—combined with an innovative ink management system—make the Rimage 2000i Series II the leader in price and performance for desktop systems.

Streamlined workflow
An optimized 2-to-1 recorder-to-printer ratio eliminates production bottlenecks and maximizes disc throughput, making the 2000i Series II system ideal for a small office environment.

Hands-free production
Reliable robotics enable long production runs and uninterrupted usage, while an integrated LCD display clearly communicates status information so you can focus on your work.

Standard Features

- Rimage Software Suite - Network provides network connectivity and remote client access
- USB 3 connectivity
- Two CD/DVD combination recorders
- 100-disc input and output bins
